Explanation of STARS and NeSA tests

STARS (Standardized Testing and Teacher-led Assessment)

Is not based on external mandates and compliance, but relies instead on the professional judgment of teachers about whether their students are learning. A system that allowed teachers to test at the point of instruction and to retest students to ensure that they were proficient.

NeSA (Nebraska Standards Accountability)

Nebraska State Accountability (NeSA) is a system of criterion-referenced tests in reading, mathematics, science, and writing. The first operational NeSA-Reading test was offered in grades 3-8 and 11 in the spring of 2010. The first operational administration of the NeSA-Mathematics test in grades 3-8 and 11 will occur in spring of 2011. NeSA-Science items will be field tested in grades 5, 8, and 11 in 2011, followed by the first operational administration in 2012. An online pilot of NeSA-Writing will be conducted in grade 11 in 2011.

Federal Accountability

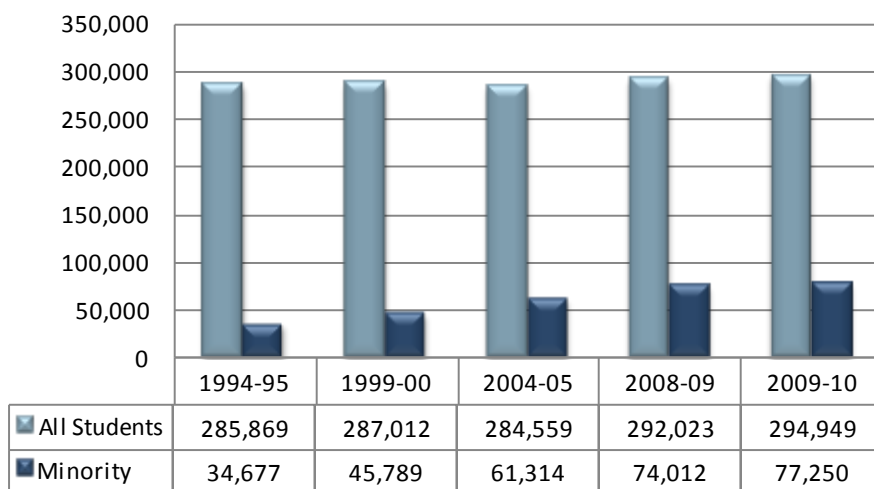

Adequate Yearly Progress (AYP) in No Child Left Behind requires State goals to increase at least every three years to ultimately reach 100% proficient by the year 2013-14. A group must consist of 30 or more students for the data to be reliable.

School Performance: State	School Buildings		School Districts	
	2009-09 Met %	2009-10 Met %	2008-09 Met %	2009-10 Met %
Percentage meeting all federal accountability requirements: Reading, writing, math, graduation rates, student participation and assessment	87.50%	74.06%	81.21%	68.77%

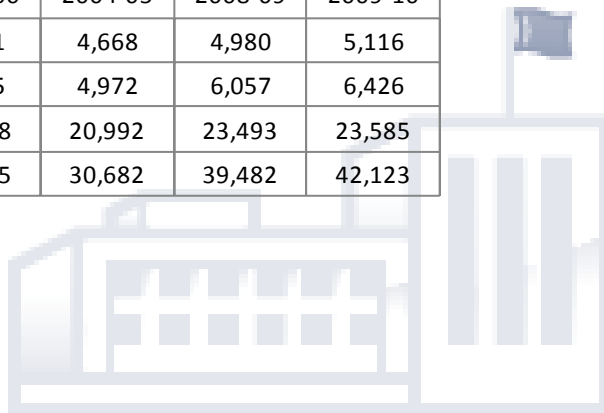

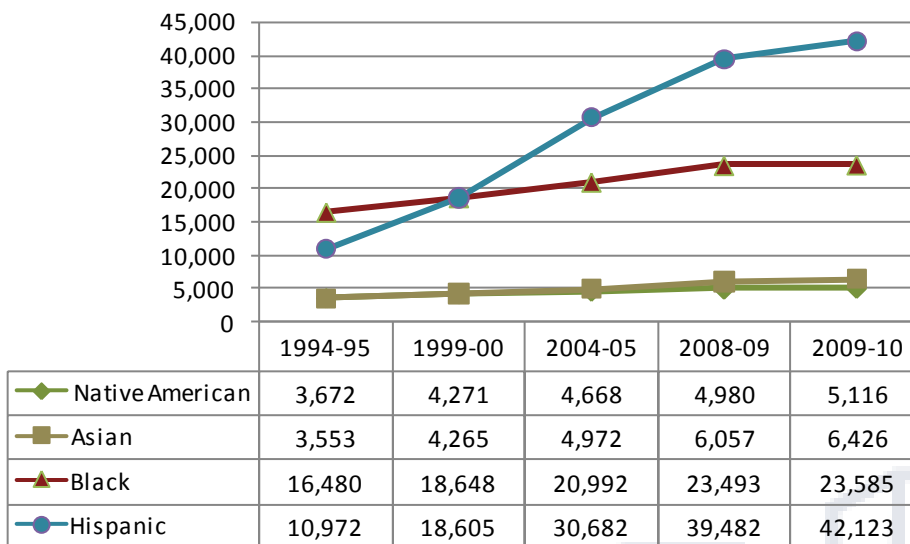

Student Group: State	School Buildings		School Districts	
	2008-09 Met %	2009-10 Met %	2008-09 Met %	2009-10 Met %
All Students	95.92%	90.95%	91.84%	91.30%
American Indian	57.14%	50.00%	63.64%	57.14%
Asian or Pacific Islander	91.67%	100.00%	88.89%	88.89%
White, Not Hispanic	97.37%	97.33%	93.72%	94.38%
Black, Not Hispanic	90.53%	59.14%	90.00%	50.00%
Hispanic	94.56%	67.50%	85.29%	63.16%
Students eligible for free and reduced lunch	91.61%	79.47%	88.395	81.90%

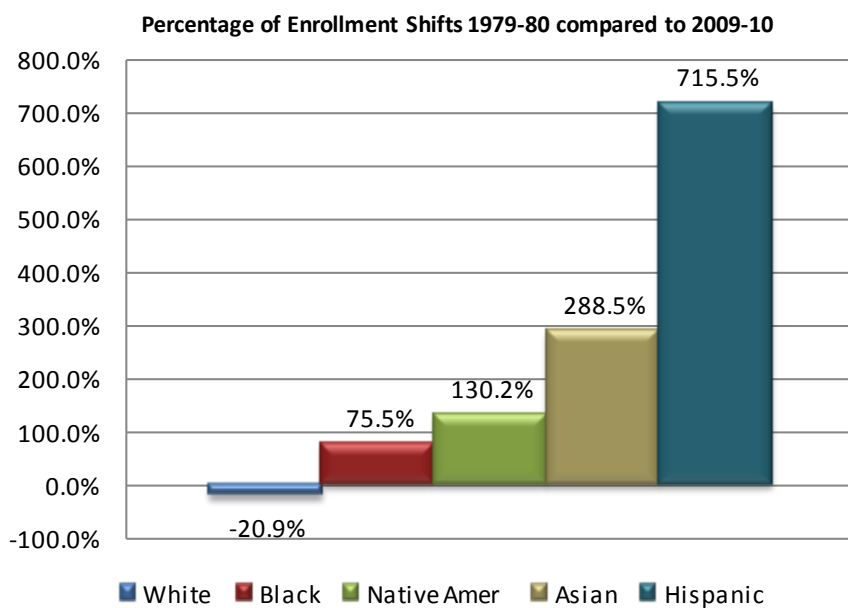

Population Data of Nebraska Schools

State Student Enrollment vs Minority Student Enrollment

Minority Student Population in Nebraska Public Schools

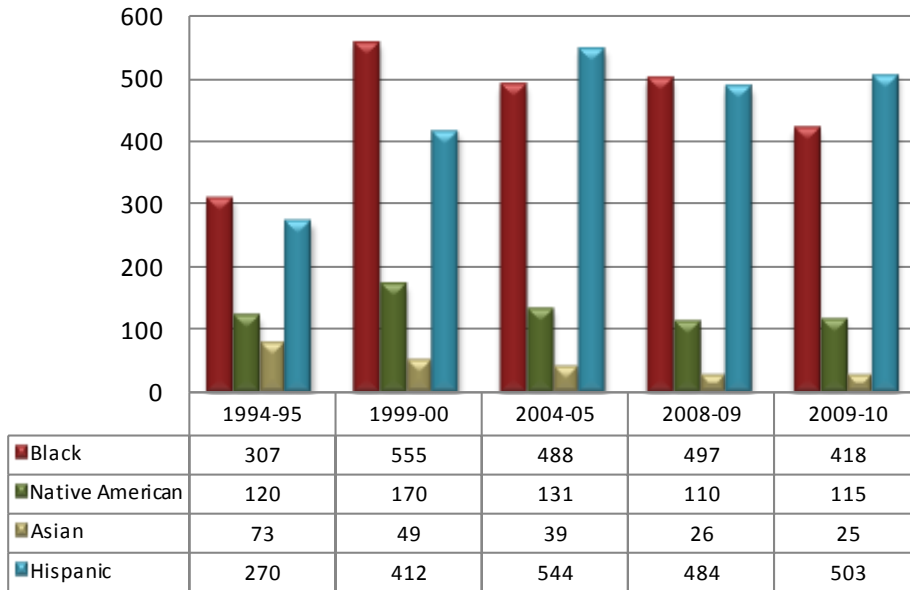

POPULATION SUMMARY BRIEF

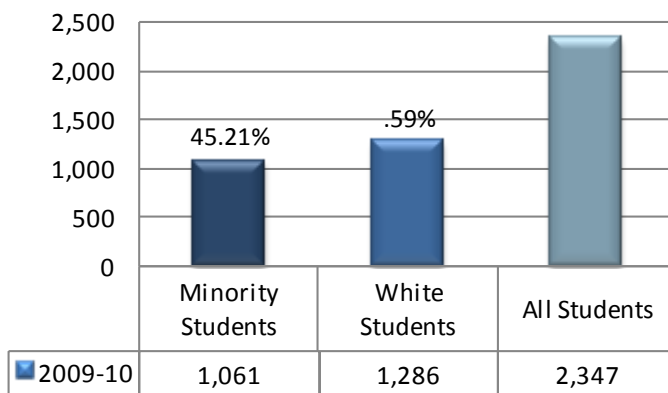

- Student population enrollment in Nebraska from 1994-95 to 2009-10 increased 9,080 students or 3.17%.
- Largest enrollment period for Nebraska students was between 2004-05 to 2008-09.
- Minority students increased in Nebraska from 34,677 students in 1994-95 to 77,250 students in 2009-10. This was a 42,573 students or 122.77% increase. White students decreased from 251,192 to 217,699.
- Hispanic increased 283.91%
- Asian increased 80.86%
- Black increased 43.11%
- Native American increased 39.32%

Drop Out Rate of Nebraska Schools

Drop Out Student Counts

Drop Out Comparisons

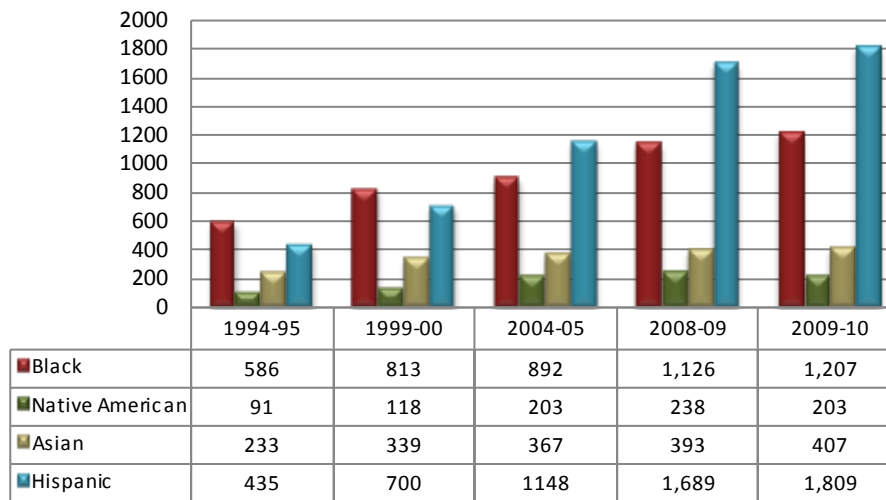

DROP OUT 2009-10 SUMMARY BRIEF

- Minority student drop out rate was 1,061 students or 7.28% of the minority population.
- White students drop out rate was 1,286 students or .59% of the white population.
- Minority students were 45.21% of the total number of student drop outs.
- White student drop out was 1,286 students or .59% of the white population dropped from school.
- 1.77% of Black students drop out
- 2.25% of Native American students drop out.
- .39% of Asian students drop out.
- 1.19% of Hispanic students drop out.

Graduation Rate of Nebraska Schools

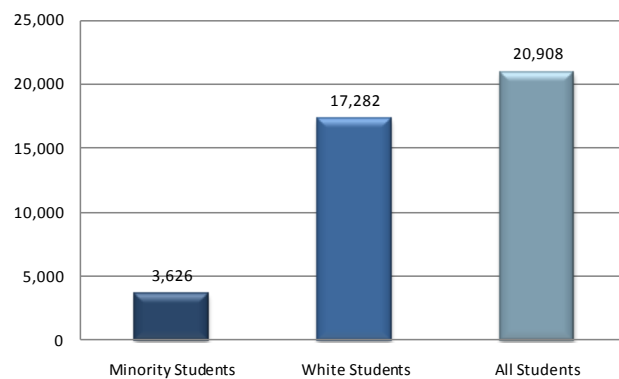

Graduation Count of Minority Students: Year Comparisons

GRADUATION 2008-09 SUMMARY BRIEF

- State graduation rate is 89.85%
- Minority students were 17.34% of the graduation rate for Nebraska, a decrease of 18.96% from previous reporting year.

2009-2010 Graduation Comparisons

Reading Scores (STARS)

STARS (Standardized Testing and Teacher-led Assessment) is not based on external mandates and compliance, but relies instead on the professional judgment of teachers about whether their students are learning. A system that allowed teachers to test at the point of instruction and to retest students to ensure that they were proficient.

Red shows a decrease in score between reporting cycles.

- 
- Black students scores were lower in most all grades in comparison with other ethnic groups.
 - Black and Hispanic students showed significant increase in most all grade levels.
 - Native American and Hispanic students scored slightly higher and were comparable.
 - White students tested the highest.
 - Asian students, decreased over the testing years but still tested higher percentages their other minority groups.

NeSA Reading Scores 2009-2010

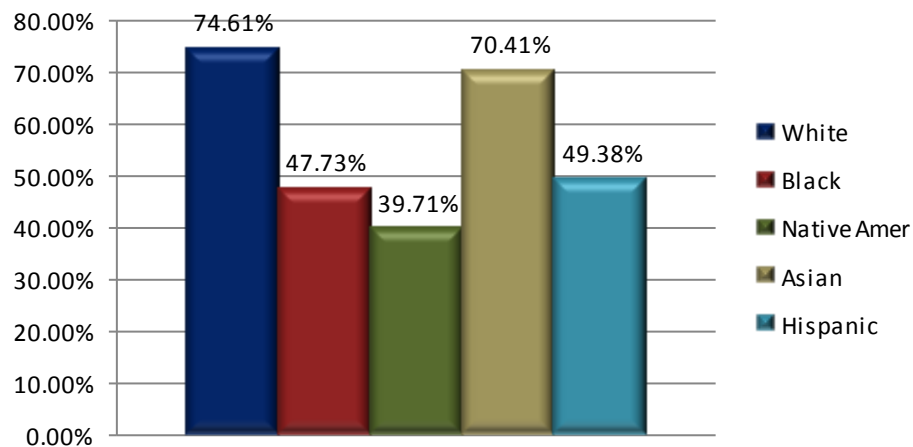

Students Testing at or Above Standards

	White	Black	Native Amer	Asian	Hispanic
Grade 3	74.61%	47.73%	39.71%	70.41%	49.38%
Grade 4	76.08%	48.59%	44.24%	77.60%	52.28%
Grade 5	74.26%	45.13%	42.72%	74.20%	48.15%
Grade 6	74.40%	49.63%	43.62%	73.06%	48.62%
Grade 7	76.22%	40.22%	44.23%	72.77%	50.10%
Grade 8	77.09%	46.18%	48.86%	72.83%	49.61%
Grade 11	73.89%	42.27%	45.57%	67.92%	48.04%

- 69% of the 147,349 students tested in grades 3-8 and 11 were proficient . These new test results should not be compared to results from the previous assessment system.
- Administered for the first time in spring 2010.
- Tests measured newly revised Nebraska Reading Standards.

Average NeSA Reading Scores Across Grade Levels for 2009-2010 that Meet or Exceed Standards

Math Scores (STARS)

This report includes STARS scores. NeSA Math Statewide will begin in 2010-2011. STARS (Standardized Testing and Teacher-led Assessment) is not based on external mandates and compliance, but relies instead on the professional judgment of teachers about whether their students are learning. A system that allowed teachers to test at the point of instruction and to retest students to ensure that they were proficient.

Red shows a decrease in score between reporting cycles.

- Native American students tested lower in Grade 7 and Grade 11 between reporting cycles.
- Native American students increased significantly on cumulative scores in Grade 4 and Grade 8.
- Asian students decreased in Grade 4, Grade 6, Grade 7 and Grade 11 between reporting cycles.
- Asian students decreased cumulative scores in Grade 3, Grade 4, Grade 7 and Grade 8
- White students maintained.
- Black students tested lower than all ethnic groups.
- Black students decreased in Grade 6, Grade 7 and Grade 8 between reporting cycles.
- Black students increased significantly in Grade 5 and Grade 6 for cumulative scores.
- Hispanic students decreased in Grade 6, grade 7 and Grade 8 between reporting cycles.
- Hispanic students maintained with a slight increase in Grade 4 and Grade 6 for cumulative scores.

Average Math (STARS) Scores Meeting or Exceeding Standards for 2009-2010

89.92% of the students tested in grades 3-8 and 11 were proficient in mathematics based on results from an assessment system that is being phased out (STARS), a system that allowed teachers to test at the point of instruction and to retest students to ensure that they were proficient. This assessment system is different from the new reading test, a one-time, drop-in measure of content and skills.

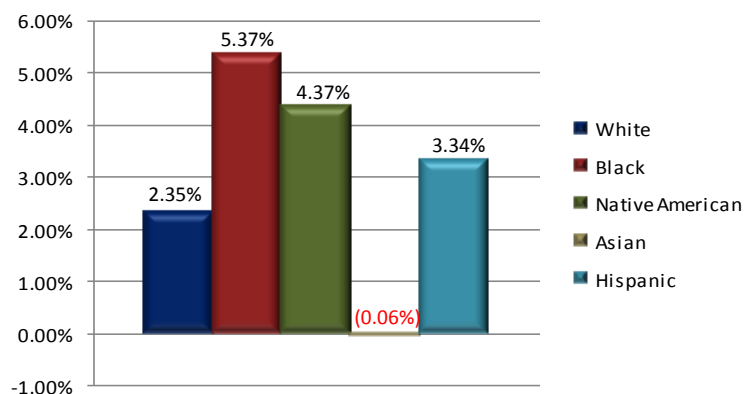

Average Math (STARS) Scores Comparisons Meeting or Exceeding Standards 2007-08, 2008-09, 2009-2010

- Black students average decreased in 2009-2010 by .06% in comparison to previous testing years.
- Asian students decreased .11% in 2008-09 to regain .05% in 2009-2010. All other ethnic groups increased or maintained.

Red shows a decrease in score between reporting cycles.

From 2007-08 to 2009-10 testing cycle, Black students increased meeting or exceeding standards by 5.37%, the highest of all racial classifications. Asian students lost percentages and lowered their percentage to a negative .06%. In comparison, minority students raised at higher percentages than the white students.

Science Scores (STARS)

STARS (Standardized Testing and Teacher-led Assessment) Is not based on external mandates and compliance, but relies instead on the professional judgment of teachers about whether their students are learning. A system that allowed teachers to test at the point of instruction and to retest students to ensure that they were proficient.

- Native American scored lower in Grade 4 and Grade 8 between the reporting cycles.
- Native American scores marked a significant decrease in Grade 4 cumulative score.
- Native American scores were the lowest scoring in Grade 4 and Grade 8 for all ethnic groups.
- Asian scores were lower in all reporting grades between the reporting cycles.
- Asian scores marked a significant decrease in Grade 4 cumulative score and a decrease in Grade 8.
- White student scores decreased in Grade 4 and Grade 8 between reporting cycles.
- White student scores decreased slightly in cumulative in Grade 4.
- Black students scores increased in each grade level between reporting cycles.
- Black students scores slightly decreased in Grade 4 and Grade 11 cumulative.
- Black and Hispanic students scores were tied with the lowest score of all ethnic groups in

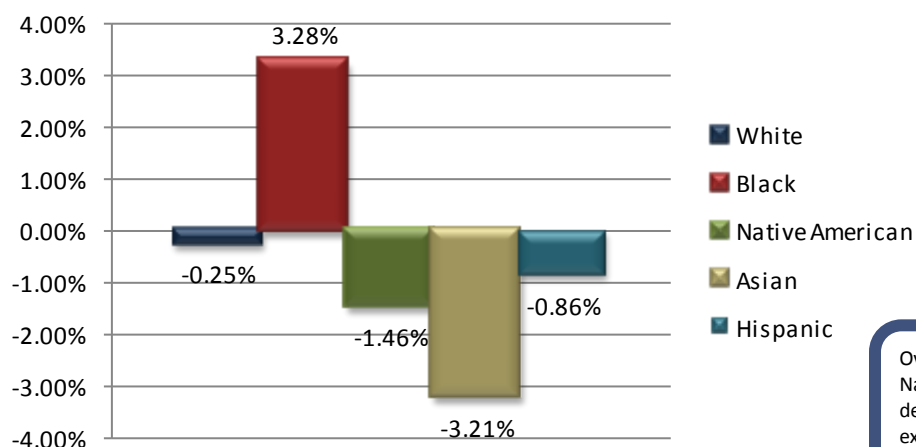

Average NeSA Writing Scores that Meet or Exceed State Standards for 2007-08, 2008-09, 2009-10

Native American, Asian and Hispanic students scored lower percentages in 2009-10 than 2008-09. Native American students were the lowest average for 2009-10. Average score for 2009-10 for all ethnic groups is 89.18%. Black Native American and Hispanic did not meet the state average school. Black, Native American and Hispanic did not meet state averages for all three testing cycles.

NeSA Score Percentage Changes Between 2008-09 and 2009-10

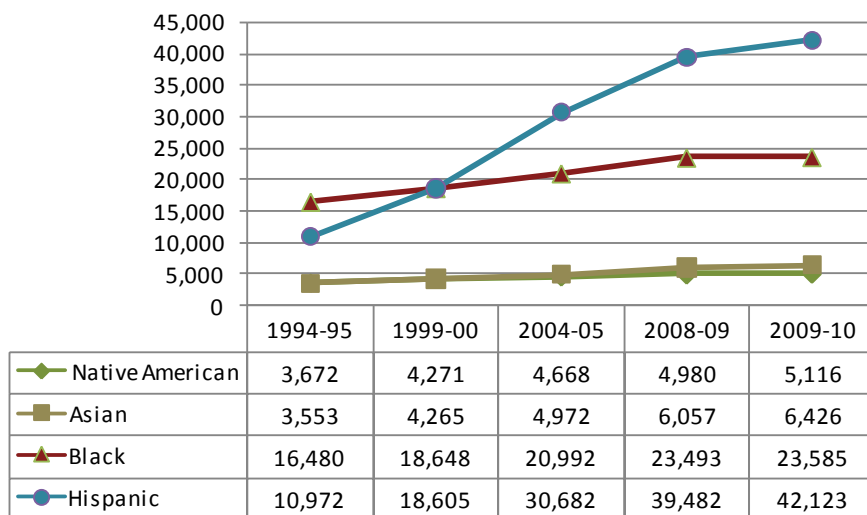

Over a 3 year testing period, Black, Native American and Asian students decreased their scores. Asian students experienced the largest decrease at (3.21%). White and Hispanic students maintained averages.

BLACK STUDENT RECAP

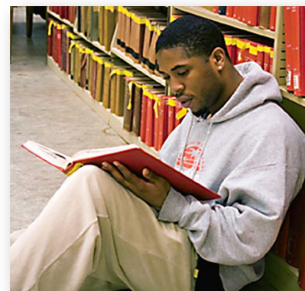

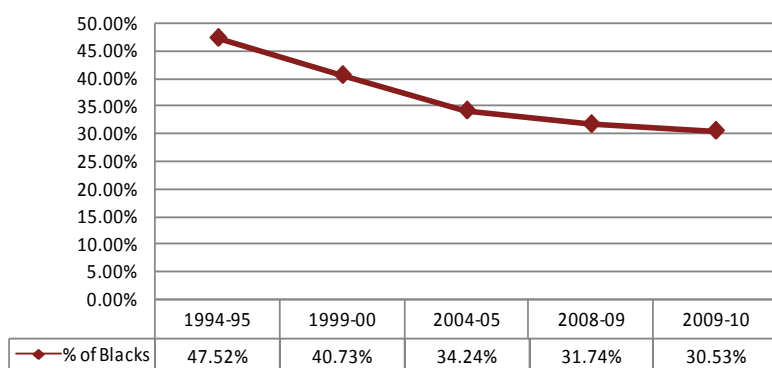

Minority Student Population in Nebraska Public Schools

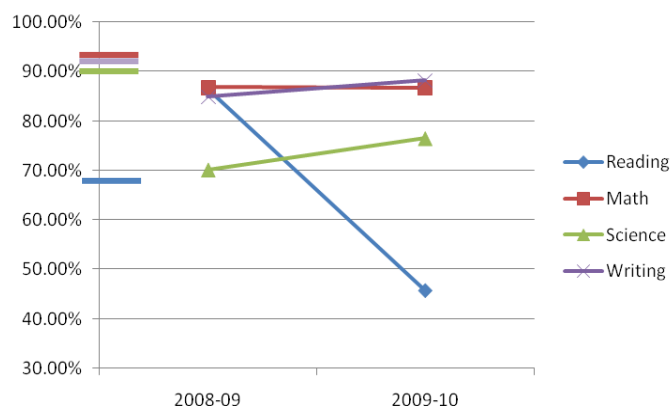

POPULATION SUMMARY BRIEF

- Black students numbers have experienced a decline in each reporting cycle as seen in graph 2.
- Black students are 30.53% of the minority population in Nebraska.
- Black students have increased 75.5% since 1979 until 2010 and are the lowest growing ethnic student group.

% of Black Population Compared to Minority Count

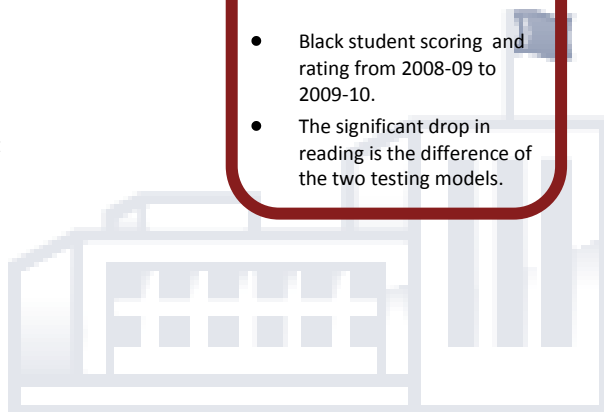

Testing Standards of Black Students

State averages are nudged on the left.

TESTING SUMMARY BRIEF

- Black student scoring and rating from 2008-09 to 2009-10.
- The significant drop in reading is the difference of the two testing models.

NeSA Testing 2009-2010

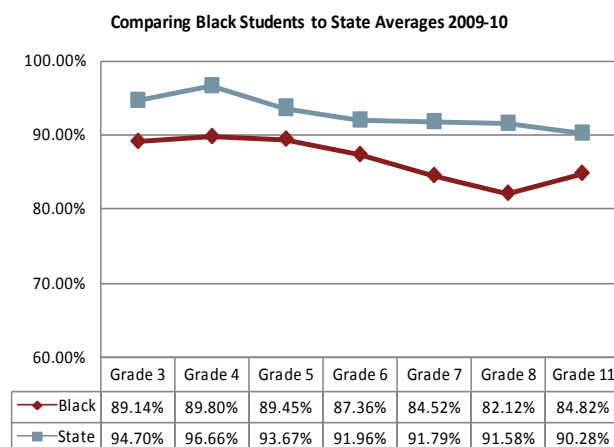

READING SUMMARY BRIEF

- Black students tested lower in all grade levels but grade 8, for all racial groups 2007-08.
- Black students tested the lowest in Grades 3, 4, 5, 6, 7, and 11 than all ethnic groups in 2007-08.
- Black students increased 2008-09 testing average score from 80.14% to 86.55%.
- Black students increased all grades levels but Grade 11 in 2008-09.
- Black students netted the second to the lowest state average score (45.68%) of all groups 2009-10 in comparing the state average testing score of 68.64%.

MATH SUMMARY BRIEF

- Black students increased each grade level during the three year testing cycle at meeting or exceeding standards.
- Scored lowest Grades 3, 4, 6, 7 for 2007-08.
- Scored lowest in Grades 3, 4, 8 for 2009-10.
- Fell .06% in 2009-10
- Black students increased their average of 81.37% proficient to 86.74% proficient in math 2008-09.
- Black students were the highest percentage of increase of all ethnic groups at 5.37% 2009-10.
- Black students increased greater than the state average for Grade 3, Grade 5, Grade 6 and Grade 7.
- 2009-10 Black students math average of all grade levels was 86.74% compared to the state average of 92.95%.

WRITING SUMMARY BRIEF

- Black students scored the lowest in Grades 4 and 11 for 2007-2008.
- Black students scored the lowest in all Grades for 2008-09.
- Black students tied with Hispanic students for the lowest in Grade 8 and Grade 11 for 2009-10.
- Black students lowered their score averages for the 3 year testing cycle in Grade 4 and Grade 11.
- State average dropped in Grade 4 and increased in Grades 8 and 11 slightly by 1.62% and .13% for 2009-10.
- For 2009-10 Black student writing average of all grade levels was 88.17% compared to the state average of 92.28%

HISPANIC STUDENT RECAP

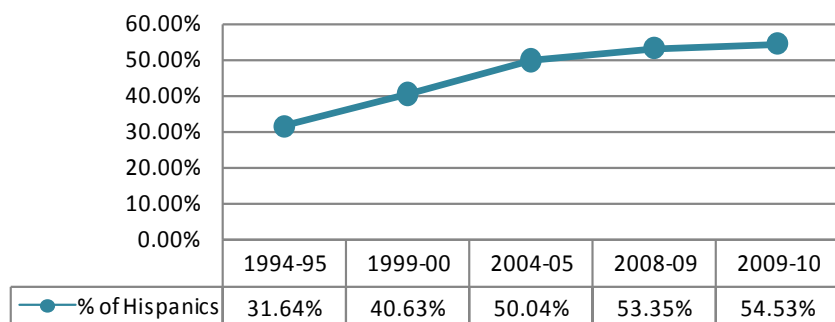

Minority Student Population in Nebraska Public Schools

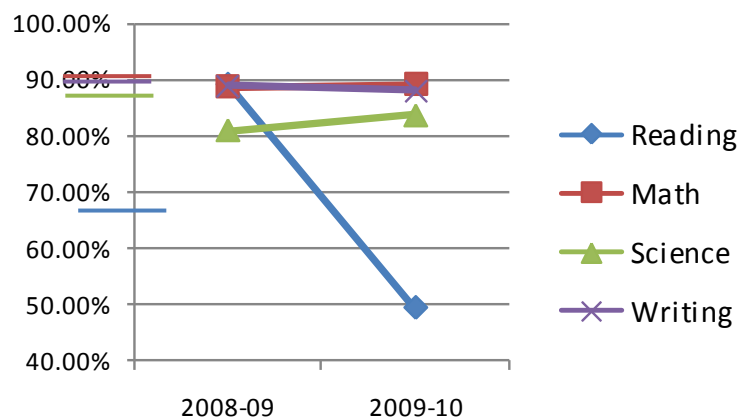

POPULATION SUMMARY BRIEF

- Hispanic student growth in Nebraska has been significant.
- Highest population growth of all student ethnic classifications increasing 715% from 1979/80 until 2010.
- The number of Hispanic students grew by 12,000 between 1990-2000 and 2004-05. The number increased by another 12,000 from 2004-05 to 2009-10.
- Hispanic students are over 50% of the ethnic student population since 2004-05.

% of Hispanic Population Compared to Minority Count

TEST STANDINGS OF HISPANIC STUDENTS

TESTING SUMMARY BRIEF

- Hispanic student scoring and rating from 2008-09 to 2009-10.
- The significant drop in reading is the difference of the two testing models.
- Reading test formatting changed in 2009-10.

State averages are nudged on the left.
